

## WHEN YOU'RE HOME, YOU'RE SAFE.

Becoming part of the American House family means you're surrounded by comfort and security. It means having the freedom to focus on your next chapter, building lasting memories with friends and loved ones. To ensure you're living happy and worry-free, we've put in place systems and practices that make your safety and well-being our top priority. Visit [AmericanHouse.com/pure](http://AmericanHouse.com/pure) to learn more about what we're doing to ensure that every home here is safe and American House PURE™ clean.

**American House Senior Living Communities** has been serving seniors and their families for over 40 years. Our goal is to provide quality care at an affordable price. Offering:

- INDEPENDENT LIVING**
- ASSISTED LIVING**
- MEMORY CARE**
- RESPITE CARE**
- HOSPICE CARE**

there's an American House that's right for you.

**American House**   
SENIOR LIVING COMMUNITIES™

**YOUR STORY. TO BE CONTINUED.**

 **PURE**™  
Safe. Clean. Pure. Home.

**LIVING WELL IS BEING WELL.™**

# OUR SAFE MOVE-IN PROGRAM

Driven by the highest standards of PURE™.

Our HomeSafe™ program focuses on the health and safety of every individual in our community. From the air you breathe to the surfaces you touch, we're diligent in creating an environment that exceeds industry standards and assures your peace of mind every day. Within these four pillars of PURE™ clean, we maintain continuous safety in your home.

## COMMUNITY DISINFECTION

- Frequent cleaning of all high-traffic areas
- Complete weekly disinfection of common areas
- Removal of bacterial impurities

## ENHANCED, STANDARDIZED HOUSEKEEPING

- Industry-leading cleaning products
- Best-practices staffing and scheduling
- Renewed training and efficiency

## FILTRATION TO ENSURE HIGHEST LEVEL OF AIR QUALITY

- 200% increase in filter changes in air handling equipment
- Instigation of upgraded HEPA filters for capture of airborne contaminants

## AIR PURIFICATION PROCESS

- Advanced air purification technology, provides improved filtration, increased airflow and a higher percentage of outside air to ensure the air our residents breathe is PURE as possible
